A musician since her early childhood, Ronya studied flute, guitar and piano. Developing her voice in opera classes, she decided to become a professional singer. At the age of twenty-two, she found in the Celtic harp the perfect instrument to accompany herself. Her first album "Delta" was released digitally, followed by the physical disc "Lyraé" in 2019. Since 2018 she has been working at the Arize music school as a harp, singing and music education teacher.
