I wanna - Evéline Simon

PROGRAM

BLUE PHOENIX DUO invites you to join them on a colourful musical journey! The atmosphere they create is one of dance, rhythm and movement, fusing world music, reggae and pop. Discover the harp's full bass sound and sparkling solos, all supported by an energetic and groovy rhythm section.

A harpist since her childhood, Evéline Simon has always aspired to make people discover the harp and its musical possibilities. After 10 years of touring with a classical harp ensemble, alongside her Celtic music group, she launched her own, solo compositions. A first album was released, followed by a second to accompany her heroic fantasy trilogy.

Eager to make learning the harp more accessible, she created harp-school.com in 2016. It is the first international online harp school of its kind, now boasting 4000 users worldwide and hundreds of video lessons for all levels and musical styles.

Following this project, Evéline created Blue Phoenix to give another dimension to her most rhythmic compositions. A double album, „Phoenix”, was released in 2020.
